VCS:

https://github.com/ryanm9899/Milestone_Submissions

https://github.com/ryanm9899/Group_Meeting_Logs

https://github.com/ryanm9899/Project_Code_and_Components

The Milestone_Submissions repo contains every milestone for the group.

The Group_Meetings_Log repo has all of the meeting logs for the group.

The Project_Code_and_Components repo contains all of the code for our project as well as other contributions from group members related to the project.

Test cases are stored in milestone 5, but are for the project we were working on before we switched to the one we finished and presented.

Project description readme is in the Project_Code_and_Components repo.

All project code used for the app can be tested by using the files Kevin R. made and added to the github, pictured below.
