

Team Number: 107-2

Team Name: Pentasquad

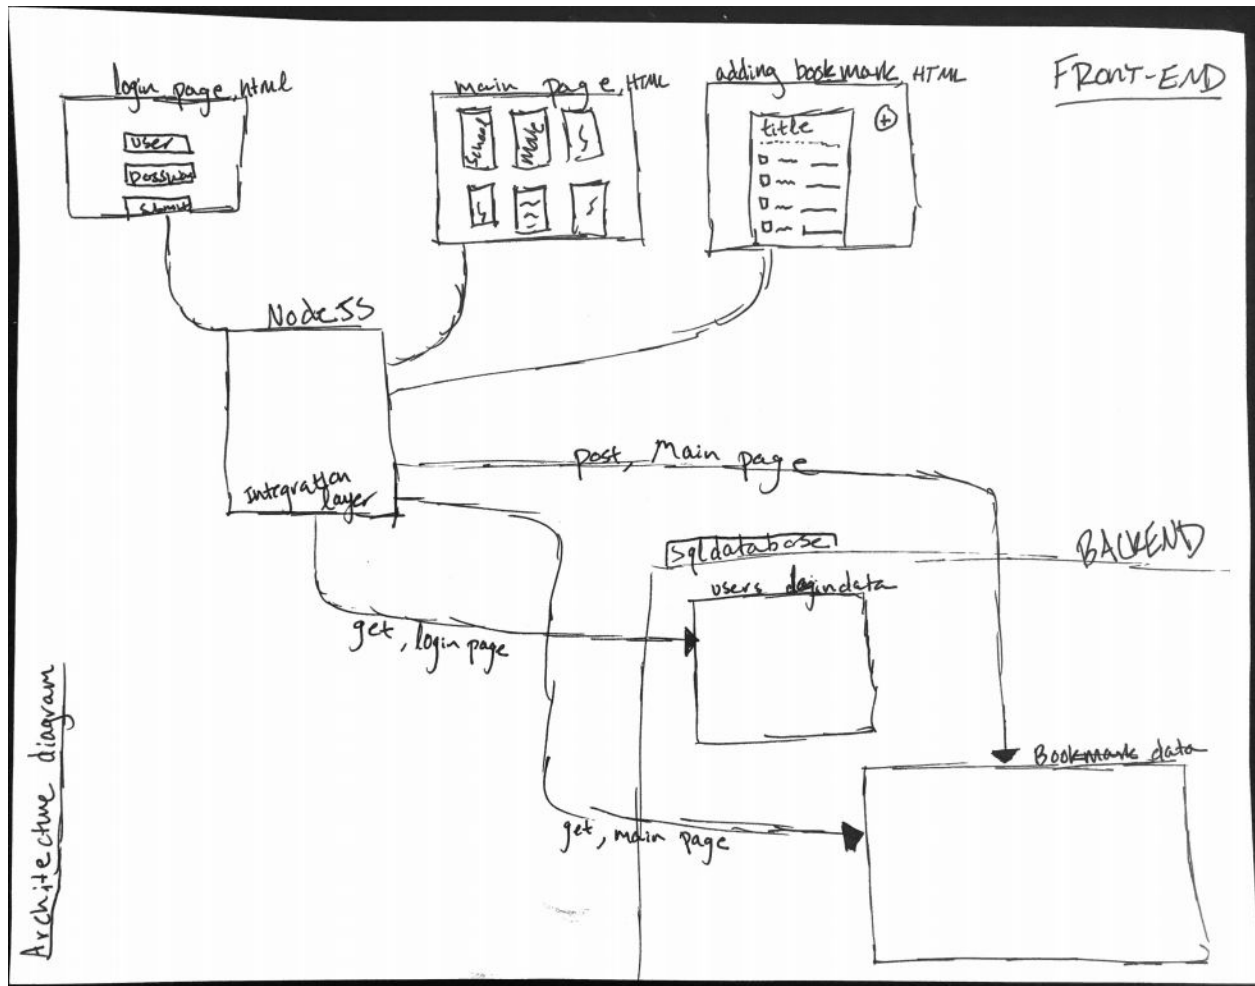

Team Member: Simon Koeten, Ryan Moore, Kevin Ruby, Yuwangyang Fan, Kevin Huynh

Project Name: Home base

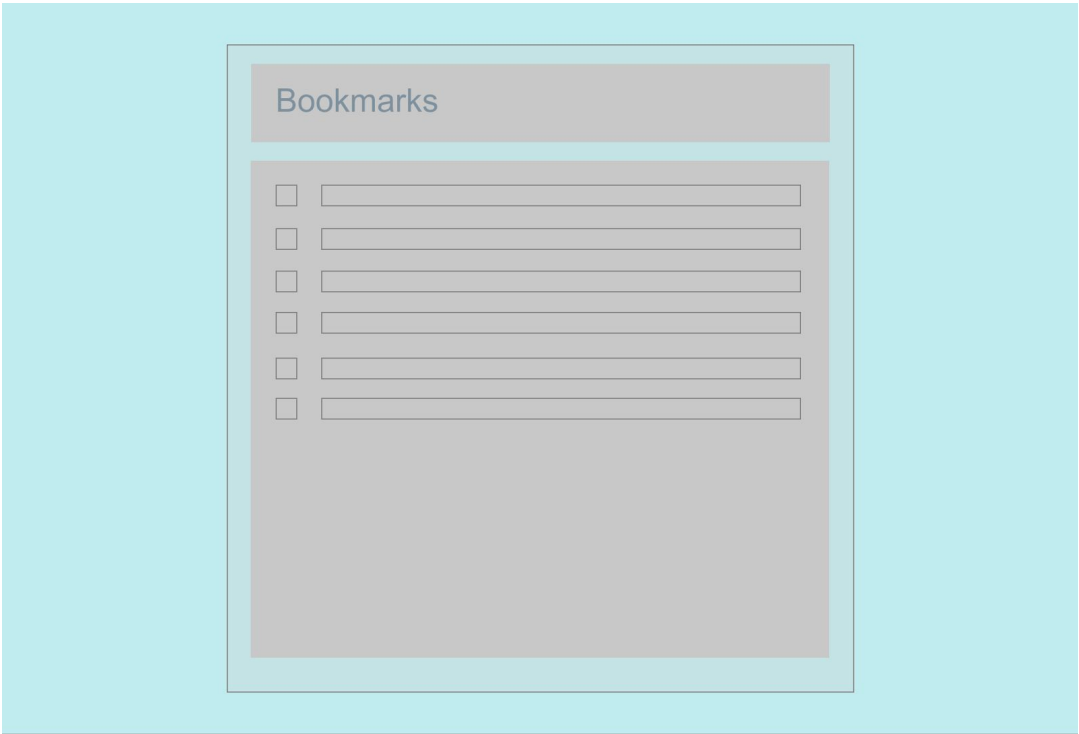

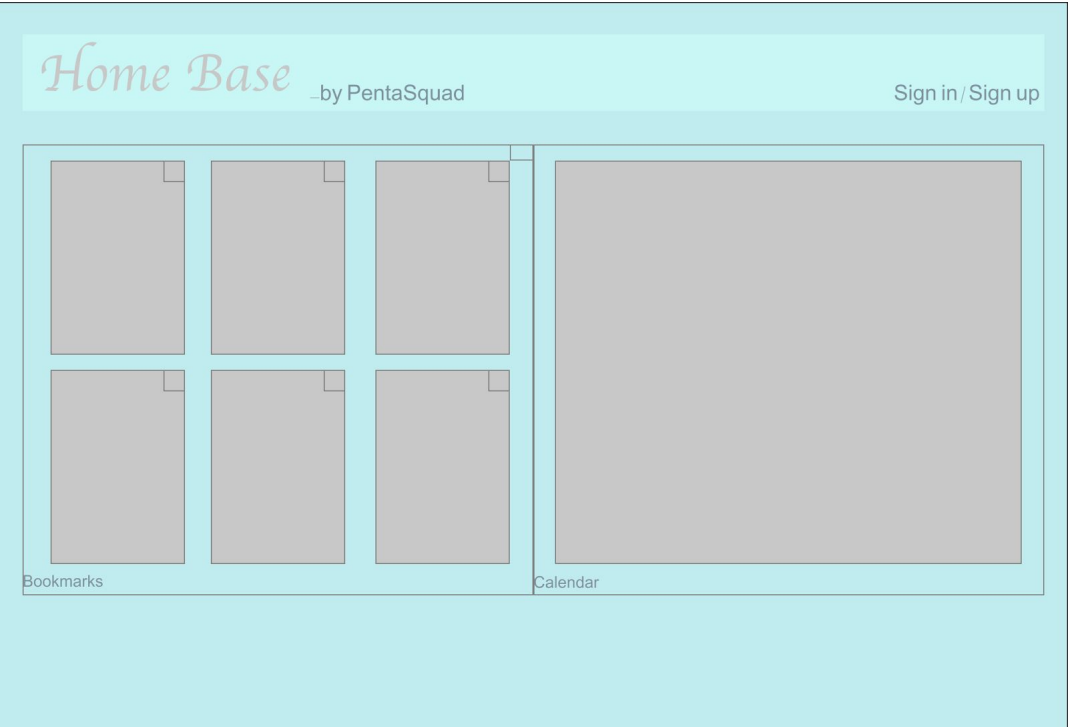

Revised List of Features (In order of development):

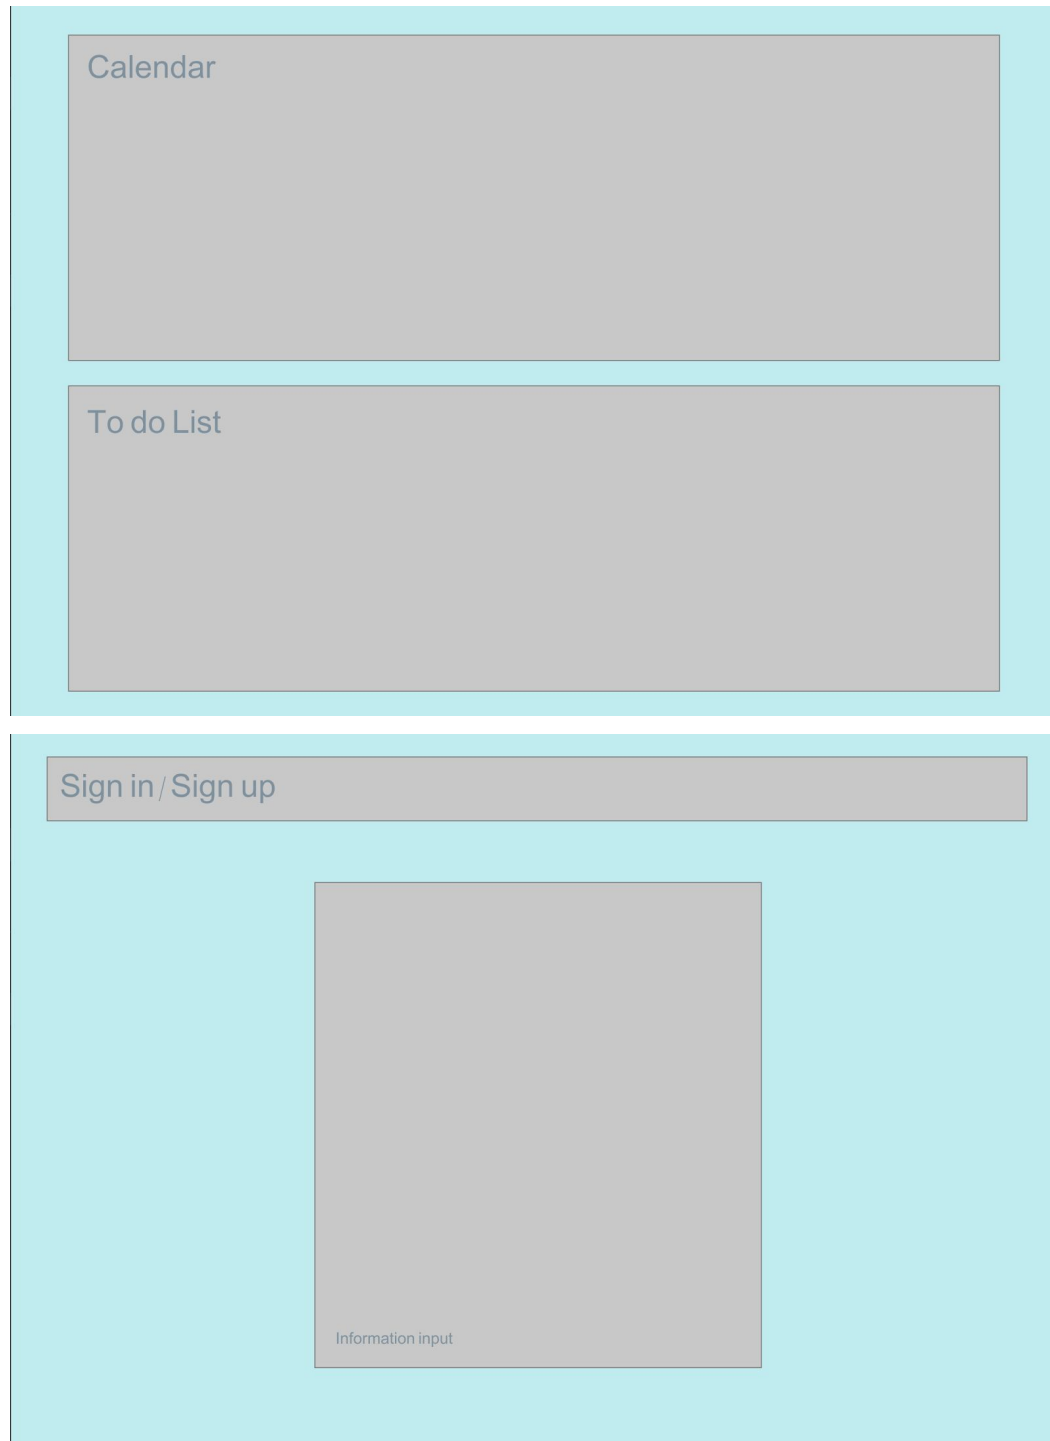

1. Bookmarks - Customizable categories for storing links. You can add any categories that you wish to add and any categories to cover your personal life.
2. Login Info - Username and password so you can login in various places, phone computer etc.
3. Delete Option - Option to delete an item once the user has completed/doesn't want the item from the bookmarks area.
4. Resize Feature - Onclick/Hover the area the user is clicking on will be resized to take up majority of the screen and other areas will become secondary.
5. To Do List - To do list where user save links to assignments and label them with a deadline date and a description provided by the user.
6. Calendar Features - Option to select a date to watch a movie (or anything you added) when the user saves the movie into the movie bookmarks area, and the date will be saved to a calendar
